Same Difference - Central Library, Sheffield, April 2007

"It's very difficult to pick one aspect of this exhibition as being the best as it is so unique! The exhibition made fantastic viewing for visitors but the artworks included in the exhibition from the workshops gave the children, and us, pride and ownership."

Gurjit Bhachoo, Marketing Officer,
Sheffield Central Library

"Pupils were allowed total freedom of ideas - not specifically channelled as is often the case- looking at each others' work and being inspired."

Mrs Jackson, Teacher,
Newbridge Junior School, Southampton

Same Difference - Centre for the Child, Central Library, Birmingham, May 2007

"We felt very privileged to host such a wealth of imaginative artwork and thoughtful comments. A big thank you from us all at the Centre for the Child! "

Janet Brisland, Manager,
Centre for the Child,
Birmingham Central Library

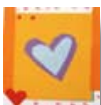

The Same Difference exhibition

The Same Difference exhibition is self contained and includes aspects of installation, sculpture and 2 dimensional work.

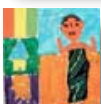

The exhibition consists of 12 inter-linking free-standing frames making the exhibition flexible to the space available at each venue.

Each frame measures approximately 1m x 2m and holds 72 pieces of double sided artwork held in rotating carriers.

The exhibition can be shown alongside other exhibitions and promotions.

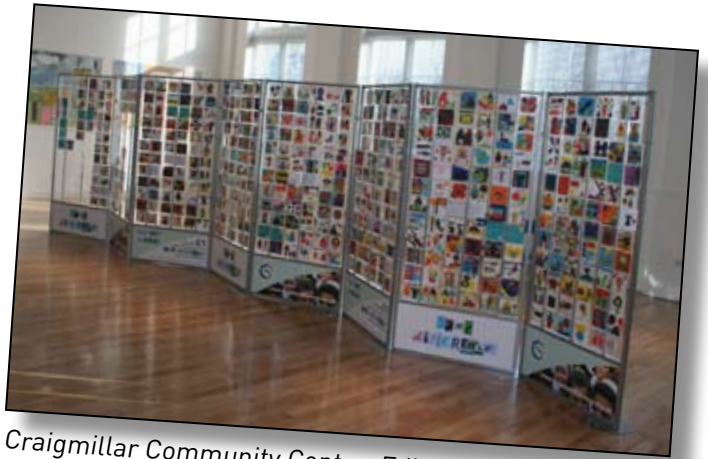

The exhibition includes children's artwork and messages about their lives with information and photographs about the countries in which they live.

Other possibilities...

The Same Difference temporary exhibition system

We have developed a system of interlocking PVC sheets for use in workshops and during travelling. Each sheet can hold up to 24 pieces of artwork and they can be joined to form banners.

Same Difference, Cultural Child Centre, Ramallah, July 2008
